ABOUT

I'm a Front End Web Developer, who loves what I do. I have a strong 10+ years' combined foundation in production management, leadership and customer service across 3 different continents. My diverse education and background equips me with adaptable skills and knowledge in order serve clients in the best possible way and make delivering projects with a team smooth and organized.

PROJECT

PROJECT ADVICE GENERATOR | SNAZZY-GRIFFIN-13D165.NETLIFY.APP | 2022
- It is a Frontend Mentor project was to build out this advice generator app using a RAdvice Slip API. When the user clicks on the button, it automatically generates an advice sentence. The tools used in the project were: HTML, CSS, RESTFul API and Github.

PROJECT IP TRACKER | IP-ADDRESS-TRACKER-RICO.NETLIFY.APP | 2022
- This React project made a request to the two Cryptocurrency APIs, where one is based on user input in a search bar and the other returned image, description, and news about Cryptocurrency displayed on the page. Tools used: HTML, React, RESTFul API, Github

PROJECT BINGE FEST | BINGEFEST.NETLIFY.APP | 2022
- In this group programming project, we were tasked with completing a site that provides a TV show or movie to watch and a restaurant to order takeout, according to user input of location and preferences. Tools used: HTML, CSS, React, RESTFul API, Firebase, Github

PROJECT CRYPTOCURRENCY SEARCH | CRYPTOCURRENCYSEARCH.NETLIFY.APP | 2022
- This React project made a request to the two Cryptocurrency APIs, where one is based on user input in a search bar and the other returned image, description, and news about Cryptocurrency displayed on the page. Tools used: HTML, React, RESTFul API, Github

PROJECT WILLOW | WILLOWSJOURNEY.NETLIFY.APP | 2021
- PSD Conversion where I created a three-page website. Tools used: HTML, CSS, Github

WORK EXPERIENCE
